THE WEST"

A FEW years ago a young man, William Allen White, made himself famous overnight by an editorial, "What's the Matter with Kansas?" Trenchant, satirical, deeply in earnest, his words bit into the very heart of the subject. Mr. White has just published a volume of stories of love and politics, "Stratagems and Spoils" (illustrated, \$1.50), which show the practical politicians of today as they really are. Politicians, the author holds, are about as bonest in their business as lawyers or bankers or farmers are in theirs, but not so honest as those men imagine they would be if they were in some business other than their own; "Brayely faithful to human nature," so Mr. Howells characterizes the stories.
